DETAILED ACTION

Claims 1-49 have been cancelled. Claims 50-60 have been newly introduced.

Drawings

The submission of formal drawings on 11/19/2004 is noted. **However, Figure 2 is missing. Again, applicant's renumbering of the subparts does not correspond with the numbering within the specification. For example, the specification at page 9 refers to Figure 4 not Figures 4a, 4b, and 4c as they have been submitted. Correction is required.**

Claim Rejections - 35 USC § 112

Claim 53 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. This is a new matter rejection.

Claim 53 is a new claim. No basis has been pointed to and none is apparent for modifying the compound identified such that binding to one or more amino acid residues depicted in Figure 2 is enhanced. Applicant is requested to point to page and line number with respect to these new claim limitations.

Claim 53 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Art Unit: 1631

Claim 53 is unclear if the modification embraced by the claim is computational in nature (e.g. using the atomic coordinate model) or an actual physical modification of the compound (e.g. chemical synthesis).

Conclusion

Claims 50-52 and 54-60 are allowable.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
